A online webinar on IPR was majorly focused on the depth of Patenting, its laws and procedure. It widely covers the types of Intellectual property, innovation and invention. The copyright issues, trade secret, forms and norms etc.

It aims at providing the information and the outcomes of the following:

1. Understand the fundamental legal principles related to copyright, patents, design, trademarks and unfair competition.
2. Identify, apply and assess principles of law relating to each of the areas of intellectual property.
3. To apply the appropriate ownership rules to intellectual property involved in creating.

This webinar was attended by the students and staff of PVGCOE Nashik and the students of outside PVG.
